Harrold's Gardener

Seeds, Bulbs and Plants For Planting Now. — April 1, 1948

HARROLD'S PANSY GARDENS & GREENHOUSES

P. O. BOX 29 - R — GRANTS PASS, OREGON.

PLEASE READ — EARLY ORDERING IS ADVISED

In this folder we offer a wide selection of material with which to beautify your home and garden. It is all from the most select strains available and in many cases the varieties offered are strains exclusive to our establishment and are not to be obtained elsewhere. These varieties are all seasonable now or soon will be in your locality. Many of these are completely hardy and may be set at any time that the ground is not frozen and the earlier they are planted the better will be the results.

All orders will be filled in rotation of their arrival as rapidly as it is possible to do so. At times, due to peak demand, it is not always possible to reach an order for a few days. Because of this it is most advisable that you enter your order as early as you can. It is always our endeavor to supply good stock, well packed and shipped as promptly as conditions of demand, labor and weather will permit. You will find our stock to be sound in value, high in quality and reasonable in price.

FILE THIS FOLDER FOR FUTURE REFERENCE AND ORDERING IF YOU ARE NOT READY TO ORDER AT ONCE.

PLEASE NOTICE

ORDERING BY MAIL

We have been supplying this material to home gardeners on a national scale for more than 25 years and have shipped to every State in the United States. Our establishment is one of the largest mailorder operations in this field in Western America. Our service is just as near your garden as your own mail box. It is our wish to serve you carefully and well at all times.

Prices In This List Are Prepaid

The prices quoted throughout this list include all packing and postage costs so they are net delivered to your door.

OUR SERVICE IS NATION WIDE

This service is available to any gardener in the United States on plants and bulbs. Outside the United States delivery of these is limited to regulations of your country and while we do what we can to conform with such regulations we accept no responsibility for safe delivery of perishable items. Also, transportation on plants and bulbs to other countries is charged at cost.

Seeds may be and are shipped to every part of the world where postal service is available. By regular post no charge is made for postage. Air Post will be charged at cost when requested.

No mail order for less than \$1.00 accepted.

Current high operating costs make it necessary that we decline to accept orders for less than a total of \$1.00. The clerical and packing labor costs of handling an order have a basic minimum which makes orders for a lesser amount unprofitable while larger orders only add moderately to packing and postage costs. We will appreciate it if this rule is completely observed.

MINIMUM QUANTITIES SUPPLIED

We have made the minimum quantities offered here quite modest. In fact, it is hardly conceivable that lesser quantities would be desirable in the average home garden. Therefore, no item will be supplied in an amount less than the smallest quantity of that item listed. Unless specifically listed in combination (usually color) varieties MAY NOT be combined to make up the minimum quantities or larger quantities to obtain the lower prices quoted on quantity. The reason for this is the same as in the case of the minimum order. Single plant quantities require just as much time and cost to prepare as the catalogue minimums listed.

SUBSTITUTIONS

Please specify definitely if substitutions are acceptable in case the variety ordered is sold out. We endeavor to supply all stock as ordered and will as long as the seasons supply lasts. It is impossible, however, to accurately gauge the demand in a line as extensive as ours so there are always some shortages that develop as the season advances. IF INFORMATION IS NOT GIVEN we will assume that it will be acceptable that we make the nearest possible substitution in the same specie. We prefer that you mention acceptable substitutions if possible.

BUSINESS HOURS AT THE NURSERY

The nursery is open to the retail trade daily from 10:00 A. M. to 5:00 P. M. ENTIRELY CLOSED TO THE PUBLIC ON SUNDAY except by special previous arrangement.

DELPHINIUM SPECIAL

A few hundred clumps of those fine PACIFIC GIANT ROUND TABLE SERIES in a most desirable blend of mixed colors. Large two year clumps from one of our seed production groups: 65c each; 3 for \$1.75; 6 for \$3.00; 12 for \$5.00. One year old plants, same strain: 35c each; 3 for \$1.00; 6 for \$1.75; 12 for \$3.00 postpaid. Both sizes bloomed last season and will flower well this year.

Special Reduced Prices On HARDY PRIMROSES

Here is a special reduced price on one of the most outstanding strains of Giant Primroses ever offered. We have an excellent stock of these and expect to satisfy demand for this outstanding stock this year for the first time since we originated and introduced this strain.

Polyanthus-Veris Hybrids

HARROLD'S PEDIGREED GIANTS

These have been a specialty with us for more than ten years and this strain is the development of our own breeding department. Through much breeding work it has been vastly improved in size, coloring and ruggedness of habit. Under really good culture it will give outstanding display and even with the commonest of culture it makes a most pleasing show.

This strain is composed of the finest crosses of the polyanthus-veris group. It has an extremely wide range of colors with the flowers, under proper culture, of the largest possible size. Individual florets, under these conditions, often exceed the size of a silver dollar, in heads from 6 to 10 inches across. Large plants that have been set two or three years, and have several of these flower clusters, make the beds a veritable riot of color. The flower stems of this strain are exceptionally long - from 10 to 16 inches - and entirely suited to cutting bouquets. A special culture sheet will be supplied with every shipment of seeds or plants.

The most economical way to buy them is in mixture as they are grown although special colors will be selected out of the mixture at premium prices as long as they can be shipped in flower. The mixture contains all the finest colors characteristic of this variety. They include yellow, red, purple, orange and a really giant white in the more regular colors. There are also many pastel shades, pink, flame, bronze and blue shades, some exclusive in this variety. The markings are self (solid colors) blotched and laced in the most fancy patterns.

YEARLINGS: Actually these are 18 months old and are going to bloom well this spring - April and May. Planted to your garden now they will give handsome beds another year in early spring for a month or more. Regular Mixture: Bed run including a normal variety of colors, 6 for \$2.00; 12 for \$3.50; 25 for \$6.00; 50 for \$11.00; 100 for \$20.00; 250 for \$40.00.

SELECTED COLORS: Yellow, red or white shades, 6 for \$3.00; 12 for \$5.00; 25 for \$9.00. Pastel shades, pink, rose, flame, orange, purple and those with lace markings, your selection, 6 for \$4.00; 12 for \$7.50; 25 for \$12.50.

BLUE SHADES, very limited, each \$1.00; 3 for \$2.50.

SEEDLING TRANSPLANTS: These were sown last summer as soon after seed harvest as possible. Some of the plants will show color this spring but not all. Ideal for planting next years bed now and they will bloom well a year from now. Price of these in bed run mixture ONLY, 25 for \$2.50; 50 for \$4.50; 100 for \$8.00; 250 for \$15.00.

SEEDS: Plant these now and through August for plants that will show color next year. Early planting made before June first will bloom quite well next spring. Quite easy to grow and a grand plant for colorful beds in shade. Packet containing about 150 seeds \$1.00; 3 packets for \$2.50. Complete culture with each order.

Hardy Plants

This is a group of very desirable material which may be set now and in many cases they will be in flower within only a few weeks. With the exception of a few biennial sorts in this list these will grow from year to year becoming more beautiful as they grow larger. The biennials, of course will bloom this year and have to be replaced, although usually they will reseed themselves so that you will have a supply of plants from them that will flower again next year. This group of stock is one of the most satisfactory, for beautifying the home grounds, that can be compiled.

Of necessity, because of the limit in available space, these descriptions must be brief. Most of these items, however, are well known and so most gardeners are acquainted with them. The very best strains are all that are offered. Each description gives the characteristic planting for each sort and its points of distinction. Where height is mentioned the figures followed by (') means feet while (") denotes inches.

VARIETY.	PLANT PRICES PER 3	6	12
AQUILEGIA — Columbine. Erect branching plant with tall slender stems. Flowers are brightly colored in many shades. Easy culture in most soils in partial shade protected from wind. Group with Scabiosa, Delphinium, Stocks or Snapdragons. MRS. NICHOLLS: (Coerulea) Spurless type of richest blue. Very attractive.	1.00	1.75	3.00
The following varieties are all long spurred.			
COPPER QUEEN: Coppery red, straw corolla.80	1.30	2.50
BLUE SHADES: Delightful coloring.80	1.30	2.50
ORANGE & SCARLET SHADES: Striking.80	1.30	2.50
ROSE QUEEN: Exquisite shades of rose.80	1.30	2.50
PINK SHADES: Attractive pastel shades.80	1.30	2.50
SNOW QUEEN: Finest pure white.80	1.30	2.50
DOBBIES IMPERIAL HYBRIDS: Mixed. Fine coloring.75	1.20	2.00
Mrs. SCOTT ELLIOTT HYBRIDS: Brilliant colored mixed.75	1.20	2.00

Hardy Carnations

These are a major specialty with our perennial department and we offer the greatest selection of any single grower of this group. Because of the variation in hardiness of these different groups we suggest that you order that group which will be hardy in your climate; otherwise we will use our best judgment in filling your order and send the one we believe will be hardy for you.

These Carnations may be used in the hardy border, in mass beds or as accent specimens in the rockery or wild flower bed. They prefer cool climatic conditions where they grow best in full sun. In warm climates plant in partial shade though not too deep a shade or this will cause weak, grassy growth with small flowers. They do best in a rather rich soil which **MUST** be well drained in the winter but retain moisture easily when watered in summer. The plants offered in separate colors will be sent in your selection although we can not guarantee the separate colors to be more than 90% true to color. Cultural sheet will be supplied free with each order.

Giant Double: Three \$1.00; 6 for \$1.50; Doz. \$2.50
Recommended only along the west coast, west of the Cascade and Sierra Nevada Mountains and in southern states. These do not withstand temperatures lower than 15 or 20 degrees above zero well. Flowers, however, are large, born on plants 16 to 20 in. high. About 95% are true, full double and flowers are 2 in. in diameter. **COLORS** — Canary yellow, cardinal red, coppery salmon, crimson, deep rose, salmon rose, rose pink, white or mixed.

Enfant de Nice: Everblooming. Three \$1.00; 6 for \$1.50; Doz. \$2.50
This is a group normally handled as hardy annuals but it may be treated as a perennial in the milder western and southern areas mentioned above. It is a cross between the above Giants and Perpetual and well retains the best points of both parents. They are intermediate in flower size between the parents although the plant is slightly higher. Flowers are 2½ to 3 inches across on strong stems and are profusely produced over a very long season - late May to frost. **COLORS** — Red, rose, salmon, scarlet, white or these colors mixed.

Grenadin Full Hardy: Three \$1.00; 6 for \$1.50; Doz. \$2.50
This group is a bit less rapid in growth and the flowers are a little smaller in average size and number but they are dependably hardy anywhere in the U. S. with light protection in the colder sections — about like that given Pansies. Flowers are about 90% double and have a delightful fragrance. **COLORS** — Dark red, cardinal red, rose, golden yellow or mixed.

Tiecher's Bi-Annual Strain: Three \$1.25; 6 for \$2.00; Doz. \$3.50
A European variety that most nearly approaches the form of the American Greenhouse Carnation. Hardiness about the same as Giant Double. Available in mixed colors only.

Vienna Dwarf Double: Three \$1.25; 6 for \$2.00; Doz. \$3.50
A low growing, short stemmed Carnation that is a gem for the rockery. Only about 8" high in brilliant colored mixture. You'll like this little fellow.

CULTURE SHEET FREE WITH EACH ORDER FOR THESE

In these Carnations variety and color may be inter-mixed in the same price groups on your selection. Please specify when ordering.

HARDY PLANTS Continued

VARIETY.	PLANT PRICES PER 3	6	12
ASTERS — Hardy Garden Types. These grow best in open sun and a medium loam soil. Flowering from June on through the summer and fall these make an excellent general border plant.			
ALPINUS MIXED: Dwarf for rockeries. Bluish purple 10".	.80	\$1.30	\$2.50
LARGE FLOWERED MIXED: Blue and purple shades, 3'.	.80	1.30	2.50
BELLIS — English Daisy. Blooms Feb. to May and later. Very compact in clumps 3 to 6" high. Dark green leaves, flowers born profusely on stems well above foliage. Use as border plant, naturalize in wild flower border, rockery or lawn. Group with Narcissus, Bulbous Iris, Tulips, Blue Pansies or Brompton Stocks.			
PERENNIS EXTRA DOUBLE MIXED: Medium size double, with rather flat petals. Mixed pink, rose, red and white.40	.75	1.25
MONSTROSA RED: Heavily double giant bright red.40	.75	1.25
MONSTROSA ROSE: Giant deep rose.40	.75	1.25
MONSTROSA WHITE: A fine giant pure white.40	.75	1.25
MONSTROSA MIXED: The two above and white and pink.40	.75	1.25
GIANT SNOWBALL: Double pure white.40	.75	1.25
TUBULOSA AETNA RED: Very large flowers of brilliant red with tubular quilled flower petals. Striking.50	1.00	1.75
TUBULOSA MONSTROSA PINK: Giant quilled flowers of light pink deepening in shade as they age.50	1.00	1.75
Campanula — Canterbury Bells. Branching plants profusely covered with bell flowers. For hardy borders or back of rockery. Grows well most anywhere except dense shade. Blooms May and June, 3 to 4'. Group with Scabiosa, Delphinium or Lupin.			
CALYCANTHEMUM MEDIUM or Cup and Saucer types. These are available in the following separate colors; Pink, dark blue, medium blue, light blue, rose, white and mixed. Select colors desired.	1.00	1.50	2.50
DOUBLE FLOWERED: Rose, blue, white or mixed.	1.00	1.50	2.50
SINGLE DARK BLUE: Very brilliant.	1.00	1.50	2.50
CANDYTUFT — Iberis. Very showy, much branched and 12 to 15" high. Flowers prolifically in spring and early summer. Group with plants of same flowering season.			
QUEEN OF ITALY: Heavy flowers of rosy lilac.50	.80	1.50
CHRYSANTHEMUM — Hardy Garden Types. These border Chrysanthemums do best in a rich, well drained soil in a sunny location. They are quite hardy to zone 4. Combine well with most any perennial permitting varied colors. Set as boarder filler or as color accent.			
GLORY MIXTURE: Many hardy types in all colors. The flowers are all large and brilliant.	1.00	1.75	3.00
KOREAN HYBRIDS: Single flowered in a most brilliant color range. Flowers 2" and over, plants 3'. Blooms early.80	1.50	2.50
DAISY SHASTA — Very desirable in any garden combining with most anything in the perennial border. Do well in rather common soil in full sun. Will tolerate semi-shade.			
G. MARCONI: Very fine strain double flowered Shasta Daisy.	1.25	2.25	4.00
SHASTA GIANT DOUBLE: Large flowers, long stems.	1.00	1.75	3.00
Note: the above two are grown from seed of the best strain obtainable and rogued. Doubleness is variable, however.			
SHASTA ALASKA: Long stemmed giant single white daisy.80	1.30	2.50
DIANTHUS — Garden Pinks. Produce beautiful flowers all summer of brilliant color and clove scented. Set in full sun; rich, moderately moist, light garden loam. For borders or group with Snapdragons, Stock, Carnation, Sweet William or Petunias.			
CAESIUS — CHEDDER PINK: Delicate rose pink, 12".50	.80	1.50
SWEET WIVELSFIELD: Many shaded hybrids about 12".50	.80	1.50
DIGITALIS — Foxglove. Grows well in ordinary soil so long as it has partial shade. Flower spike 3' or more, covered with thimble-like flowers that droop to one side of the stalk and are usually spotted. Use in perennial border or group with Hollyhock, Campanula, Shasta Daisy, Stock or Delphinium.			
GLOXINIFLORA: Large flowered. Rose or white.75	1.25	2.25
SHIRLEY HYBRIDS: Giant, all colors with spotted throat.75	1.25	2.25
GAILLARDIA — Blanket Flower. A showy plant liking full sun but will tolerate slight shade. Grows well in commonest of soil producing a profusion of flowers from early summer until frost. Height about 2 to 3'. For mixed border or group with Delphinium, Snapdragons or yellow Geum.			
DAZZLER: Golden yellow, maroon zone.75	1.25	2.25
PORTOLA HYBRIDS: Mostly scarlet, gold tipped. Variable.75	1.25	2.25
GEUM — Best in sun but will grow in light shade. Likes moist, light soil. Plant short with flower stalk about 16". Group with Tall Lobelia, Michaelmas Daisies or Salvia.			
LADY STRATHEDEN: Fine double yellow.	1.00	1.75	3.00
MRS. BRADSHAW: Double orange scarlet.	1.00	1.75	3.00

HARDY PLANTS Continued

VARIETY.	PLANT PRICES PER 3	6	12
GYPHOPHILA — Baby's Breath. Plant has hair-like foliage and light airy flowers producing a beautiful effect in garden or as filler for bouquets. Thrives in a moist, moderately rich soil. Dry for winter bouquets.			
OLDHAMINA: Flesh pink, large flowers in profusion.....	\$.75	\$1.25	\$2.25
PANACULATA DOUBLE SNOW: Double flowering white.80	1.50	2.50
LYCHNIS — Campion. Of the simplest culture in almost any garden soil where it combines well with nearly any hardy border selection.			
VISCARIA SPLENDENS: Early deep rose, 16".80	1.36	2.50
MYOSOTIS — Forget-me-not. Small star shaped flowers of blue freely produced. Plants of handsome form. Excellent for edgings. Combines well with Tulips and spring blooming bulbs. Grows in ordinary soils but prefers light, moist, well fertilized soil.			
ALPESTRIS SUTTON'S ROYAL BLUE: Free flowering.75	1.25	2.25
OBLONGATA BLUE BIRD: Early large flowered blue.75	1.25	2.25
PENTSTEMON — Bearded Tongue. A bushy plant branching from the base and having bright, shiny leaves. The flowers, freely produced are tubular, of large size and brilliant coloring. Plants are 2' to 3' high. Blooms from April to Sept. Group with Clarkia, Godetia, Delphinium, Pyrethrum, Shasta Daisy or Verbena.			
SENSATION MIXED: A hybrid mixture of many colors.....	.80	1.50	2.50
POPPY NUDICAULE — Iceland Poppy. About 18" high with tufted plant of bright green. Stems leafless and flower is medium large in brilliant colors. Will group effectively by itself or with any annual or perennial in the mixed border.			
GARTFORD GIANT ART SHADES: Pastel shades, fluted.80	1.50	2.50
SANFORD'S GIANTS: Deep colors and large flowers.80	1.50	2.50
YELLOW WONDER: Giant flowers of pure gold.80	1.50	2.50
POPPY ORIENTAL — Tremendous cup-shaped flowers of brilliant coloring. Clumps of these throughout the hardy border add an effect obtained with no other plant. Very striking.			
PRINCESS VICTORIA LOUISE: Giant Salmon.	1.00	1.75	3.00
NEW HYBRIDS: Grown from seeds saved from named sorts	1.00	1.75	3.00
ORIENTAL SCARLET: Very large scarlet & scarlet-orange.80	1.50	2.50
PYRETHRUM — Painted or Persian Daisy. A very attractive daisy like flower in many colors. Plant has fern like foliage of bright green and is about 12" high with flowers on long slender stems well above the plant. Prefers a well enriched soil but will tolerate a great variety of soils. Must have good winter drainage. Full sun or moderate shade. Group with Sweet William, Iceland Poppy, Scabiosa, Stocks or in mixed borders with iris.			
EXTRA DOUBLE MIXED: An outstanding double mixture.	1.25	2.00	3.50
GRANDIFLORA MIXED: Singles of many shades.80	1.50	2.50
JAMES KELWAY: Rich velvety blood red.80	1.50	2.50
ROBINSON'S GIANT DARK CRIMSON. Very fine.	1.00	1.75	3.00
ROBINSON'S GIANT HYBRIDS: Large singles many colors.90	1.75	3.00
ROSEUM ROSE: Large, brilliant carmine rose.80	1.50	2.50
ROSEUM DOUBLE FLOWERED MIXED: 70% double.	1.00	1.75	3.00
RUBY RED: Giant single flowers.80	1.50	2.50
SINGLE AND DOUBLE MIXED: Very nice.80	1.50	2.50
STARTLER: Deep crimson-rose. Single.80	1.50	2.50
STACHYS LANATA — Rabbit's Ears or Lamb's Ears. Valued mostly for its foliage which is gray green clothed with a dense white wool. Grows easily & makes an attractive plant throughout the year.			
PURPLE FLOWERED: Attractive to Humming Birds.80	1.25	2.00
SCABIOSA — Pin Cushion Flower. A very odd but effective plant about 2' tall. Flowers are of unusual hue and form, freely produced all summer if not allowed to set seeds. Can be used effectively with almost any plants common to the mixed perennial border. Easily grown in an open, sunny position.			
HOUSE'S GIANT HYBRIDS: The largest flowered and best hardy variety in a grand color range.	1.00	1.75	3.00
SWEET WILLIAM — Dianthus Barbatius. An early flowering perennial growing 6" to 20" high. They should be planted in full sun or partial shade. Useful as an edging or in the mixed border grouped with Snapdragon, Stocks, Carnations, Petunias or Larkspur.			
DWARF ALPINE: 6" to 8" high. Fine color blend.50	.90	1.75
DOUBLE FLOWERED MIXED: A well balanced blend.60	1.00	1.90
SINGLE FLOWERED TYPES: Separate colors as follows. Rich crimson, salmon pink, scarlet, purple, white and mixed.	.50	.90	1.75
STATICE — Limonium or Sea Lavender. A plant of easy culture in almost any good garden soil but prefers the more sandy types. Grown in open sun or partial shade in almost any hardy border arrangement. The flowers may be dried for winter bouquets like Baby's Breath and most useful for home decoration.			
LATIFOLIA: Blue with plants a foot high.80	1.50	2.50

HARDY PLANTS Continued

VARIETY.	PLANT PRICES PER 3	6	12
PHLOX HARDY GARDEN — These are one of the finest groups of hardy border plants being most colorful over a long period. Everyone, almost, knows them by sight and they will grow almost anywhere in sun or semi-shade. Our selection is limited this year so we list only by color groups instead of variety. All are of the finest varieties and the plants are husky divisions.			
PINK SHADES: Range in several shades. We will try and supply shade wanted if mentioned.	\$1.00	\$1.90	\$3.50
PURPLE AND LAVENDER SHADES:	1.10	2.00	3.75
TWO - TONE COLORING:	1.10	2.00	3.75
WHITE: Several nice varieties.	1.10	3.00	3.75
NAMED: We will tag each plant as to name at 10c each.			

HARDY CHINESE ORCHIDS

These Bletilla Hyacinthina, a native of China and Tibet are a most interesting true Orchid that is hardy practically anywhere in the U. S. Flower stems are a foot or more tall and the plant produces 6 or 7 flowers typically orchid shaped. Grows well in half shaded protected border forming clumps as the plant gains age. Color choice, white or lavender. PRICE: \$1.00 each; 3 for \$2.50 postpaid.

CULTURE SHEET FREE WITH EACH ORDER FOR THESE

ANEMONES — Giant Windflower

These are a very showy flower which may be grown either in doors or in the garden. When planted under indoor conditions they may be forced to bloom over a very long season with three or four months growth being required to bring them into flower. Outdoors they may be planted in the open border or in beds. They prefer a cool growing condition so may be planted late into the spring where the summers remain cool. The colors are exceptionally brilliant and they really make very attractive beds. When naturalized they soon make large clumps that bloom profusely.

SINGLE FLOWERING: Colors red, blue, lavender pink, white and a select mixture — 20 for \$1.00; 50 for \$2.50; 100 for \$4.00; 250 for \$9.00.

DOUBLE FLOWERING: Don Juan, red; Lord Derby blue; Queen of Violets violet; Rosette rose and white variegated; Surprise carmine; Purity white and St. Brigid fine mixed. — 12 for \$1.00; 25 for \$1.80; 100 for \$6.00.

CULTURE SHEET FREE WITH EACH ORDER FOR THESE

RANUNCULUS — Giant Double

PERSIAN BUTTERCUPS: Few flowers give so much beauty and color with so inexpensive a start. In climates where temperatures do not generally drop below 25 degrees in winter these may be fall planted, elsewhere they should be planted in early spring. They like a moist, moderately rich soil where drainage is good. Each bulb produces many fully double flowers 3 to 5 inches across. They prefer partial shade or light shade. No garden should be without them.

COLORS: Gold, Orange, pink, red, white and a very fine mixture. PRICE: 12 for \$1.00; 25 for \$1.75; 100 for \$5.50; 250 for \$11.00.

CULTURE SHEET FREE WITH EACH ORDER FOR THESE

THIS IS IT! Have Fun Killing Weeds.

No more backachs weeding that lawn of dandelion, buckhorn, plantain or other broad leaved weeds. Simply set WEED-WAND on center of weed and press. No stooping. Weighs only 15 ounces, no fatigue. Kills weeds completely selectively. No injury to grass. Use with any 2,4D product.

PRICE OF WEED-WAND \$1.00 Postpaid. Enough 2,4D powder to kill 100,000 weeds \$1.00 Postpaid.

Please Read Before Ordering

ALL OFFERS ARE MADE SUBJECT to stock remaining available until order can be reached in the rotation of its arrival here. The shipment of outdoor grown stock is understood to be subject to the weather and orders incorporated into our shipping schedule (being acknowledged to you) are not subject to your cancellation. We suggest permission to make substitution be given whenever possible as in some cases it may make possible the completing of your order. If not given or specifically refused we will exercise our best judgment in such matters.

PAYMENT — All mail orders **MUST** be accompanied by the full amount of the order in cash. This may be sent by postal money order or note, express money order, bank draft, or personal check. If by personal check and your bank makes any collection charge to the payee, please remit the amount of this charge as all remittance is expected to be collectable at par. Remittance from foreign countries must be by postal order or New York draft collectable at par in United States funds. Currency sent by mail is at your own risk. **WE WILL NOT ACCEPT POSTAGE STAMPS FOR ANY PART OF THE REMITTANCE** so please don't send them. They will only be returned to you. Prices herein, except as specifically noted are prepaid inside the United States. Special handling or foreign transport will be charged for at cost. No plant shipments outside the U. S. and bulbs only when proper documents are supplied by the purchaser.

MAKE REMITTANCE PAYABLE TO — HARROLD'S.

NO GUARANTEE — In common with general practice in the seed and nursery trade we do not in any way guarantee the results or crop obtained from any material we send out. The wide range of conditions under which culture may be undertaken as well as the varying skill of the individual gardeners should make the reason for this obvious. We use every care in growing and handling the material offered and endeavor at all times to supply stock true to name and description that will satisfy you. In no case, however, will we assume a responsibility greater than the amount received as the original purchase price and if for any reason an adjustment is indicated we reserve the right to make such an adjustment in the form of replacement in identical kind ordered, credit memo on future purchase or cash at our option. **ALL** claims for bad order arrival or any other cause must be reported promptly in accord with instructions on our invoices.

Exotic Tuberous Begonias

HARROLD'S PEDIGREED STRAIN - AMERICAN GROWN

Dormant Tubers or Plants Ready to Set

DORMANT TUBERS: These may still be planted indoors and moved into the summer flowering situation as soon as danger of killing frost is past or they may be planted in the outdoor bed in the dormant condition when frost danger is past. In either case, if cultural conditions are reasonably favorable they should start flowering in from 7 to 12 weeks after planting. This means that if planted dormant around May 15th, which is generally safe in most climates, the plant will begin flowering in late July or early August and give about six weeks to two months of good bloom in most localities; more where the season is long. While the season will be shorter than for the plants listed below or tubers that you may have planted earlier indoors, the flower season is still very much worthwhile and as long as that of many other plants you commonly culture in your garden and prize most highly. Because of their beauty there is certainly every reason for planting even dormant tubers of these yet.

READY TO SET PLANTS: We have 50,000 of these coming along in our greenhouse for shipment to you in a growing condition, ready to plant right outdoors. Planted in February and March, these will begin flowering early and will give one to two months more bloom than the dormant tubers ordered now. We will start shipping them in late April or early May and continue to ship until the end of June or until the supply is exhausted. **THESE PLANTS ARE GROWN FROM TUBERS - THEY ARE NOT SEEDLINGS.** As far as we know we are the only firm offering Tuber Grown plants on a national scale. Compared with seedling plants commonly offered at this time of year, these plants will develop bloom more quickly, give a much longer flowering season, produce a much larger plant that develops many more flowers and will be found superior to seedling plants in every way. They cost a little more but are well worth the difference in the results they will give under normal good culture.

WE OFFER TWO GRADES: It will be noted that we offer two sizes or grades of plants. There is absolutely no difference in the varieties or strain quality. The more expensive grade is grown from our regular retail tuber stock (tubers 1½ to 2 inch diameter). The less costly grade is grown from our ¾ to 1½ inch tubers and when properly started in the greenhouse, they make husky plants that will give excellent results. Because of crop conditions all varieties are not available in both grades. You may use either, however, with confidence. The **FANCIERS NOVELTY MIXTURE** is an especially attractive item as it is all from large tubers and the varieties included cover our entire list, some listing as high as \$1.00 per dormant tuber.

OUR TUBEROUS BEGONIA CATALOGUE IN COLOR: While we believe that we have mailed copies to every one who will receive this offer we will be glad to supply additional copies on request. It gives a more complete description than is possible here along with much cultural data. **OUR EIGHT PAGE, 8,000 word cultural booklet** covering the history and culture of this plant is included **FREE** with each shipment of tubers or plants.

SUPER NOVELTIES:—

This group affords the ultimate in these Begonias. American Wonder, Atomic Gold, and Gorgeous are Harrold Exclusives.

ECONOMY BEDDING MIXTURE. This is all the standard type group in mixture.

HARROLD'S BEGONIA-GROW This is a nutrient compound, entirely organic in its composition, which we have developed for the culture of Tuberous Begonias. Combined with peat moss or leafmold — loam or clay soil and sand it is possible to build a satisfactory growing medium for these tubers without cow manure which has always been considered so essential. It may also be used with cow manure with beneficial results. It is a boon to the city gardener for it makes possible the growing and feeding of Tuberous Begonias in a satisfactory manner by combining it with common ingredients that are at hand. Full instructions accompany every package. Put up in packages containing enough to feed twelve tubers throughout the growing season. **PRICE IS FIFTY CENTS A PACKAGE POSTPAID.**
